## The Advantage College Savings Plan

Higher learning is one of the best investments you can make in your children's future. With sound planning and an early start you can be ready for college when your children are.

The Advantage® is more than a savings account. It's your promise to put your children on the road to better jobs, higher wages and greater success.

Make a promise to save and we'll help you create a plan to succeed. With The Advantage® College Savings Plan from CFAL, your children will have all the opportunities they rightly deserve.

## Affordable

One of the key features of The Advantage® saving plan is its affordable payment structure. With an initial minimum investment of only \$250 and a monthly contribution of \$100, the dream of a college education for your children can now become a reality.

## Flexible

The Advantage® offers investment options suited to your individual time horizon and tolerance for risk. You may vary your investment options as your child ages, and if your financial situation changes you may choose to increase or decrease your contributions.

## Personalized

Your CFAL professional will work one on one with you to explain your options and help you select an investment strategy based on a thorough understanding of your needs. It's one more way we're using CircleVision® to look out for your financial security, in every direction, every day.
