FUND INVESTMENT OBJECTIVE:

CFAL Global Equity Fund, Ltd. ("Global Equity Fund") seeks to provide long term capital appreciation.

FUND INVESTMENT STRATEGY

The Fund will pursue its objective by investing primarily in fundamentally strong securities of international companies and indices that are believed to have above-average market appreciation potential. In evaluating securities, the investment manager seeks to recognize growth potential early and buy securities before their price fully reflects the faster than consensus growth rate.

FUND SUITABILITY

The Fund is ideal for individual and institutional investors who want to diversify their investments and can accept volatility of the international markets for the opportunity of higher potential returns.
